---

## EDUCATION

University of Pittsburgh, Pittsburgh, PA  
BS in Computer Engineering

Aug 2012 - Dec 2016

## WHAT SAM IS LOOKING FOR

I'm looking for a team that prides itself on treating everyone like family, aggressively drives toward a common goal, and has clear employee evaluation criteria. A workplace that respects a healthy work-life balance and has a general attitude of jumping in with both feet is where I do best.

## SKILLS SAM CAN USE TO HELP YOU

### Programming

- React.js, Node.js, Javascript, Python, HTML/CSS, Java, SQL, Flask, JQuery

### Software

- Visual Studio, INTELLIJ, JIRA, Confluence, Trello, Mailchimp/Mandrill, Kibana, Grafana, Sentry, New Relic, Pagerduty, Matomo, Google analytics, Lucidchart

### Healthcare

- HIPPA certified, allowed to handle PHI and PII

### Spoken Languages

- Russian (Conversational)

## SAM'S WORK EXPERIENCE

Full Stack Software Engineer, Quartet Health, New York, NY

May 2017 – Present

- Launched and iterate on the company's flagship patient-facing application
- Architected and implemented a strategy for a company-wide database transition
- Lead the development of multiple features from ideation to implementation
- Relied upon to onboard and mentor new engineering employees
- Heavily contribute to workspace documentation
- Triage live production issues in a timely manner during on-call rotations

Professor of Computer Science, University of Pittsburgh, Pittsburgh, PA

Jan 2017 – May 2017

- Instructed a Python programming course with over 50 students
- Catered to all learning styles by offering public and private office hours in addition to lecture
- Created automated grading programs to grade projects for over 100 students
- Received a 4.8/5 on ratemyprofessor.com by my students

Software Development Intern, Sylogent, Newtown, PA

May 2016 – Dec 2016

- Developed a 1-click live-feedback background process to automate application deployment
- Automated dynamic email responses between clinical trials agencies and our clients
- Created an internal marketing application to gather information on potential clients
- Received and implemented software requirements directly from the CEO and Lead Developer

Branch Manager, College Works Painting, Pittsburgh, PA

Feb 2014 – Aug 2014

- Personal sales from cold calls in excess of \$83,000 in less than four months
- Hired, trained, and managed 7 employees in sales and production

## OUTSIDE OF WORK

- Perform in a semi-professional a cappella group
- Create small-scale wood and paper sculptures
- Run a small business focused on providing environmentally-friendly bedding solutions
